

Web Tools to Enhance Learning

By: Matt Bergman

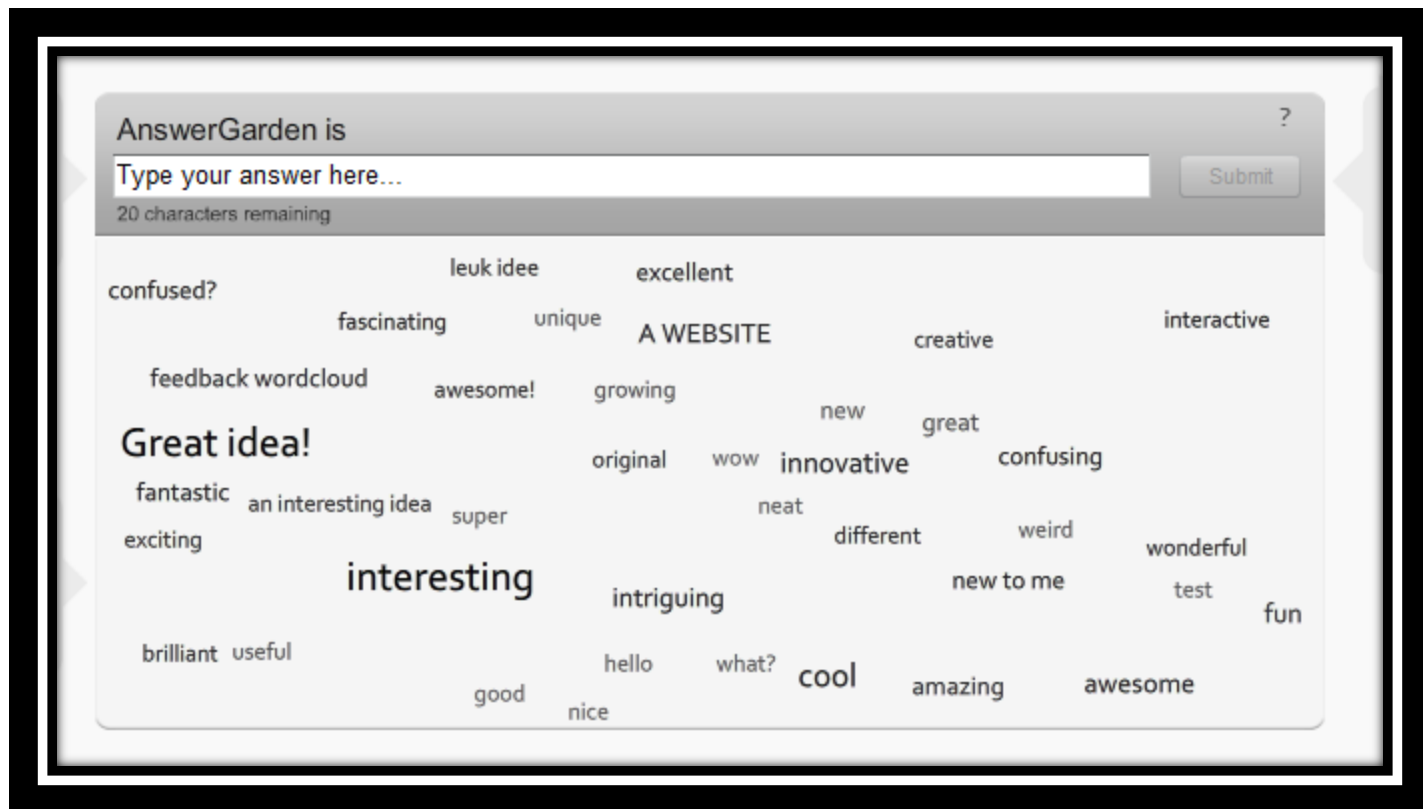

Milton Hershey School

Which technologies do you currently use with your students?

- <http://answer garden.ch/view/38483>

AnswerGarden

- Is an online brainstorming tool that requires no log in information and creates a unique URL that can be shared with your students!

How might you use AnswerGarden in your classroom?

- <https://bubbl.us/>

Bubbl.US

- Is an online brainstorming tool that allows you to brainstorm and save without a password. Students with a username and password can “share” and collaborate on Bubbl.us

How were Bubbl.us and AnswerGarden similar? Different?

- <http://www.readwritethink.org/files/resources/interactives/venn/>

Read Write Think - Venn Diagrams

The screenshot shows a web-based interface for creating Venn diagrams. At the top, there is a purple header with the text "Sample Title" and "by Author". Below this is a yellow bar with the title "Interactive Venn Diagram" and navigation buttons for "Demo", "Finish", and "Print". The main area features two overlapping circles, one yellow (labeled "Label 1") and one purple (labeled "Label 2"). To the right of the circles is a form with two input fields: "Enter Concept" (a single-line text box) and "Enter Concept Description" (a multi-line text area). On the far right, there are vertical buttons for "Edit" and "Help". At the bottom right, the "read·write·think" logo is displayed, along with the International Reading Association logo and the text "NCIE marcopolo".

Do you want other interactive tools?

Quizlet

- Quizlet is a site that you can use to create your own flashcards. Students can quiz themselves, play review games, or take a review quiz!
- You can also search for existing flashcards from other teachers!

Purpose Games

- Create your own online matching games and online quiz for students to review and learn!

Other Resources:

- LiveBinders – online binder to organize your files!
